Subject: MICROSOFT SETTLEMENT

Dear Sirs:

I understand that this is the time for public comment on the Microsoft settlement. My feeling is that a settlement is long overdue and should be in favor of Microsoft. Our whole economy is dependent on free enterprise. Ever since this all began our economy has been in decline. It is time to get this over with and get back to the business of business.

It is almost impossible to use a computer and not use a Microsoft product.

This case has hurt my economic well being. Time to settle.

Thank you,

William N Mickelson
